

BED

CLARYSSE

LUXURY THAT LASTS

designed in Belgium.

BED

CLARYSSE MEANS LUXURY.

Luxury is Clarysse's middle name. From the finest yarn to a perfected finish, right down to the bag we store our bedding in. Only the best is good enough. You are sure to feel like royalty with these collections.

CLARYSSE MEANS DURABILITY.

Our bedding is not just stunning. It is also extremely durable and made with the best materials. From natural linen to organic cotton to our wood-based TENCEL™ Lyocell line, we offer you a strong product that lasts a lifetime.

CLARYSSE MEANS COMFORT.

The softest sheets and the cosiest duvets. That's why you should choose Clarysse bedding. Experience unmatched comfort and enjoy a refreshing night's sleep with any of our products.

-------------------	----

OUR STORY

OUR PROMISE

Clarysse's bedding is more than qualitative sheets and comfortable duvets. It is a safe haven. A gentle embrace. A refuge after a long day. We are with you for all the special moments and give your everyday life that extra comfort.

DESIGNED IN BELGIUM

All our sheets, pillowcases and duvets are designed in Belgium, where we safeguard both exquisite quality and timeless design. Always with the latest trends in mind.

MADE IN EUROPE

Our bedding and duvets are made in Europe which matches Clarysse's core value of fair working conditions and local2local practices. It also means that we ensure a fast lead time and guarantee the best quality.

WIDE BOTTLENECK

Our duvet covers are equipped with a 40 cm long bottleneck and a wide opening. The result is that your sheet stays in place during the night which creates an extra snug feeling. Make the bed crisp and tight in the morning for an exquisite hotel look.

OEKO-TEX® CERTIFIED

Clarysse ensures a safe product as we don't use any harmful chemicals or substances in our collections. This mindset earned us the OEKO-TEX® certification for all our bedding.

MATCHING BAG

At Clarysse we are protecting the planet by reducing plastic waste. So, with all our duvet covers comes a matching bag in the same fabric to keep your new bedding nice and clean. You can use it to store your sheets or as a nice reusable bag for all your shopping needs. Your choice.

MIX & MATCH

Clarysse gives you the ultimate mix and match opportunity. As our pillowcases are sold separately, you can pick different colours for your sheets and pillowcases, in any of our fabrics. There are dozens of combinations. It's up to you.

THE ART OF COMFORT

Choosing the right fabric is crucial for the optimal sleeping experience. Whether you need something breathable, luxurious or lightweight, we are here to help you make the right choice. All natural of course, as we don't use synthetic fibres in any of our sleeping products.

COSY COTTON

Our superb 100% organic cotton fabric gives cotton a little something extra. This safe and natural choice is not just made with cotton percale to give it a crisp look, it's also been pre-washed for an extra soft touch. Cotton sheets are amazingly breathable, lightweight and easy to maintain. A great Sunday feeling on a regular day.

SILK + TENCEL™ LYOCELL = HEAVEN

As a dedicated eco-conscious company, it should come as no surprise that we are using the most eco-friendly materials for our bedding. This idea resulted in our TENCEL™ Lyocell /silk blend, combining the best of both materials into one exquisite sheet. TENCEL™ Lyocell fibres, made of natural wood material, result in an incredibly soft fabric that is highly absorbent and breathable. These characteristics are combined with the subtle lustre and smooth touch of silk. And they are great for skin and hair! Perfection.

LINEN THROUGHOUT THE YEAR

Our 100% linen bedding is made with Euroflax linen, meaning the flax is harvested in Europe and is of the finest quality. It is also pre-washed for a nice natural effect and gets softer with every wash. Linen is characterised by an amazing breathability and has antibacterial properties. These sheets are great for year-round use, as they are cool in summer and warm in winter.

ALL-SEASON DUVETS

New in the Clarysse family are our duvets. They come in two varieties: a summer duvet and a mid-season duvet. Put together they will keep you warm and comfortable during cold winter nights. Composed of separate sections, the filling stays in place no matter how much you toss and turn at night. Choose between lightweight and luxurious down or cosy and breathable wool. Both are incredibly sustainable options. Whichever you choose, you are sure to get a great night's sleep.

BEDDING COLLECTION

NOA

WASHED COTTON

Made of 100% premium organic cotton, this sheet is incredibly lightweight and breathable. Perfect to create that holiday feeling on a regular weekday.

WOOL DUVETS

Our wool duvets and pillows ensure a great breathability and thermoregulation, making them perfect for year-round use. As they are made from high-quality organic wool, they are extremely soft and warm. Wool also neutralises odours due to its antibacterial properties. Engulf yourself in dreamlike comfort with our wool duvets. Perfect for counting sheep.

GUS

DOWN DUVETS

Down duvets have amazing insulating properties and are extremely lightweight and breathable. In other words, they are great for that comfortable feeling during cold winter nights, and they leave you well-rested in summer. Made from 90% down and 10% feathers, they are both soft and durable. The ticking is also down proof, which means the filling won't come out. A luxurious choice for year-round use.

Large double	260 x 240 cm	2,46 kg	3,12 kg

Ticking:
100% percale cotton

Composition:
90% down, 10% feather

CARE

CARE INSTRUCTIONS

Our bedding is made with the finest materials and, when cared for properly, can withstand the wear and tear of everyday use. To fully enjoy your sheets for years to come, we advise you to follow our care instructions.

THE FIRST USE

Before you can use your new bedding, we advise you to first wash your sheets at 40 °C. This will increase both absorbency and breathability. Our duvets do not have to be washed for the first use.

WASHING

Wash your sheets, pillows and duvets at 40 °C to preserve their luxurious condition. Only wash one double sheet or two single sheets at the same time for thorough cleaning. Please turn your sheets inside out to preserve their quality and colours. Only add a little laundry detergent and no softener, as this could create a film on the fabric. To avoid creasing, always remove wet sheets from the washing machine as soon as possible. Please wash anything with buttons and zippers separately to avoid wear and tear. Wash with similar colours.

Our duvets may be washed at 40 °C at a low spinning speed on a wool programme with a small amount of detergent for delicate or wool wash. Frequent airing is recommended.

DRYING

You may dry your sheets in the tumble dryer at a low temperature. Our duvets should be air dried on a flat surface or gently dried at a low spinning speed and a low temperature. Avoid direct sunlight to prevent discolouration.

IRONING

Our sheets cause minimal creasing which makes ironing unnecessary. Should you want to iron the sheets, you may do so at a low temperature. Please turn the sheets inside out to preserve the quality and colour.

TO BLEACH OR NOT TO BLEACH

Bleach might affect the fabric and colour of our bedding. We do not recommend using bleach or bleach-based laundry detergent, even in a diluted form, as this might affect the colour and quality.
