CLARYSSE

LUXURY THAT LASTS

designed in Belgium.

KITCHEN

CLARYSSE MEANS LUXURY.

With our kitchen collections, we offer more than a quality product; we provide a high-end experience. Do your dishes with an extra-absorbent tea towel. Dry your hands with the softest terry towel. Bring a fresh look into your home with our luxury kitchen linen.

CLARYSSE MEANS TIMELESS.

With kitchen design constantly changing, a timeless look in your linen is a must. You can match any of our towels with your home and see a refreshing look every time. Your kitchen might change, but your Clarysse towel won't have to.

CLARYSSE MEANS SIMPLICITY.

Clarysse gives you a pure product without fuss. Our kitchen towels have a luxurious touch, are highly absorbent and can be used for dishes, hands or just as decoration. Mix and match for a unique look without effort. For all your family's needs, you can count on Clarysse.

CARE

Care instructions	56
-------------------	----

OUR STORY

OUR PROMISE

Clarysse kitchen linen is instantly recognisable by its high quality and timeless design. Whether you want a tea towel to dry glasses, a dishcloth for your kitchen counter or just a beautiful towel to brighten up the home, we have what you need.

HIGHEST ABSORBENCY

The most crucial feature of any kitchen towel is how well it dries your hands and dishes. Clarysse towels have this down to a T. Absorbency even increases after every washing cycle. And because it dries quickly, your towel is always ready for the next use.

EASILY MIXED AND MATCHED

Our kitchen collections each consist of several towels that are specifically designed to match each other. A soft vintage look. A professional design. A matching oven mitt for your towel. Look no further. Get the entire collection for a different look with the same vibe.

DESIGNED IN BELGIUM

Our Belgian design team carefully selects kitchen linen that fits the Clarysse standards. With a luxurious look and comfortable feel. And excellent absorbency and durability. The way kitchen linen should be.

LOOPED FOR YOUR EASE

All Clarysse towels are equipped with a hanging loop on the long side to easily hang your towel. An extra effort we gladly make for our customers as we think it's an indispensable feature of any elegant kitchen towel.

A SAFE PRODUCT FOR ALL

Clarysse guarantees a safe product without harmful substances or chemicals. All our kitchen linen received the OEKO-TEX® Standard 100 certification and are REACH compliant. This means all Clarysse products adhere to international safety requirements.

PREMIUM QUALITY

Clarysse is constantly on the lookout for new ways to provide the best product for our customers. We love to experiment with different materials and push the boundaries of kitchen linen daily. The result is a unique experience with the same Clarysse flair.

100% COTTON

Cotton is the most-used material for a kitchen towel. And with reason. Our 100% cotton towels have the perfect absorbency for washing dishes and the right softness needed for drying your hands. It is a versatile fibre that is durable, natural and biodegradable.

COTTON RAMIE

Our cotton/ramie blended towels are a great alternative to our 100% cotton towels. Ramie, like cotton, is an all-natural material that is inherently anti-bacterial. The fibre is very absorbent, breathable and light. A little coarser than cotton, ramie is great for drying glasses.

EXTRA STITCH IN THE CORNERS

Durability is immensely important in such a high-use product. To increase strength, we added an extra stitch in the corners of our tea towels.

DOUBLE YARN

Many of our kitchen towels are made with double yarn in both warp and weft. This results in a durable towel with a tight and modern look, which you can find in both our Modernist and our Classic collection.

CE APPROVED

Our oven mitts and potholders are CE approved, meaning they adhere to the strict European standards for safety, health and environmental protection. Our products can handle heat up to 250 degrees Celsius. Perfect for cooking.

CALENDERED FOR EXTRA LUSTRE

Our tea towels have been calendered which means they are passed through rolls at a high temperature and pressed until they are lustrous, soft and even more luxurious.

CARE

CARE INSTRUCTIONS

To keep our kitchen linen as soft and absorbent as the day you bought them, we advise you to follow our care instructions. For individual instructions, please read the towel's label.

FIRST-TIME USE

Before first using our kitchen linen, we advise you to wash them first at a low temperature with similar colours and a little laundry detergent. There is no need to add softener as this will diminish absorbency. The more you wash your towel, the better it will absorb water.

WASHING, DRYING AND IRONING

All our towels may be washed in the washing machine. Check the care label for more information on temperature.

Most of our towels are allowed in the tumble dryer. For more information, please consult the care label.

-  Do not tumble dry.
-  Allowed in the tumble dryer.
-  Tumble dry at low heat.

All our towels can be ironed. Some should be ironed at a low temperature, however, so please follow our care instructions carefully.

Iron at a low temperature.

Iron at a medium temperature.

TO BLEACH OR NOT TO BLEACH

To enjoy the colours and patterns of your towels for years to come, we advise you to not use bleach or bleach-based laundry detergent on your towels. This might cause discolouration and even disintegration of the fabric.
